

PARENTING THE TWEEN YEARS

(7-12 years old)

DESCRIPTION:

This **one-hour virtual seminar** will give insights into parenting children in this age group and share information about developmental and behavioural issues, peer group dynamics, puberty, responsibility, and discipline.

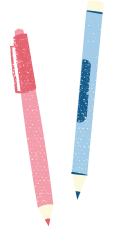

Parents with children in their tween years, aged seven to 12, are faced with **unique challenges**, as are their children. While these kids are no longer toddlers, they are not yet ready for the increased level of independence teenagers frequently experience.

Participants will discuss valuable strategies designed to make this stage of their child's growth **safe, satisfying, and enjoyable**.

OBJECTIVES:

At the end of this seminar, participants will be able to do the following:

- Understand the developmental issues of children at this age
- Develop strategies to cope with the challenges that can arise
- Communicate expectations effectively
- Discuss the principles of responsibility, independence, identity and morality

REGISTER TODAY:

November 7, 2023

6:00 - 7:00 p.m.
